EDUCATION

Valencia College

Aug 2018 - Present

A.A. General & Computer Science

Orlando, FL

- Honors student, 3.43 GPA (3.8 in CS classes), debate club captain, and Dean's list.

PROJECTS

Chatroom App

Ruby on Rails | Action Cable | AJAX | SemanticUI | Github | Heroku

- Created a web app which allowed users to register and engage in live-messaging conversations with other users. Messages were containerized, styled and ordered by recency. Users were also able to change their information including: name, display name, email, and password.

Finance Tracker Social

Ruby on Rails | IEX API | Javascript | Bootstrap | Github | Heroku

- Created a web app which allowed users to register and follow stocks and other users. Users are also able to see the stocks followed by other users and unfollow/follow at-will. Includes premium feature to limit how many stocks a user can follow without a premium subscription.

Restaurant Voting App

Ruby on Rails | React | Serializer API | Typescript | TailwindCSS | Github | Heroku

- Created a web app which allowed users to register and review restaurants in a 1-5 star scale.
- Restaurant reviews could be seen in listed order and displayed the average rating of all reviews.

Project Management SaaS App

Ruby on Rails | Vue.js | Sendgrid API | Bulma | Github | Heroku |

- Created a web app which allowed users to register and invite others to a group/project.
- Users can create projects and track progress via an activity log that displays recent events.

TECHNICAL SKILLS

Bilingual | Amazon Cloud Foundations | Responsive Web Design | Ruby on Rails | Bulma | TailwindCSS
MaterializeCSS | Javascript | Typescript | React | Vue.js | API | JSON | Postgresql | Sqlite3 | Full-Stack
Webpacker | Github | Gitflow | Heroku | Sendgrid | HTML | CSS | Object Oriented Programming
